

Water Industry Competition Act 2006

Schedule 4, clause 10

and

Water Industry Competition (General) Regulation 2024

Schedule 5, clause 3

**Notice of decision – Grant of scheme approval and
approval of variation to scheme approval**

Approval No. 24_024SA

The Independent Pricing and Regulatory Tribunal (**IPART**):

- (a) grants Altogether Huntlee Pty Ltd (ACN 167 418 608) scheme approval under Schedule 4, clause 10(1) of the *Water Industry Competition Act 2006* (**Act**), and
- (b) approves Altogether Huntlee Pty Ltd's application for a variation of the scheme approval referred to in paragraph (a) under Schedule 5, clauses 3(1) and 3(3) of the *Water Industry Competition (General) Regulation 2024* (**Regulation**).

The scheme approval and variation take effect on 14 August 2024.

In considering whether to grant the scheme approval and what conditions to impose on the approval, IPART had regard to the objects in sections 2A and 5A of the Act.

For the variation to the scheme approval, IPART is satisfied that there are no grounds for refusing to approve the variation under section 7K(7)-(9) of the Act

The scheme approval, as varied, is attached.

2/09/2024

Scheme Approval

Approval Authorisation Table

Scheme name	Huntlee
Approval number	24_024SA
Version history	<p>Current approval in force since: 14 August 2024.</p> <p>Details about grant, variation, replacement, cancellation or surrender of this approval are set out in Schedule A.</p>
Regulated scheme (retailer required)	Yes
Staged scheme (the Act, s 7F(1)(f))	No
Area of operations (the Act, s 7F(1)(a))	<p>The area specified in Schedule H.</p> <p>(The map in Schedule B shows a simple illustration of the area of operations. Refer to Schedule H for the precise area of operations.)</p>
Authorised location of infrastructure, other than pipelines within the reticulation network connected to the infrastructure (the Act, s 7F(1)(b))	<p>The locations specified in Schedule I.</p> <p>(The map in Schedule B shows a simple illustration of the locations of infrastructure. Refer to Schedule I for the precise location.)</p>
Authorised classes (the Act, s 7F(1)(c))	<ul style="list-style-type: none"><input type="checkbox"/> Infrastructure for the purpose of the production or supply of drinking water<input checked="" type="checkbox"/> Infrastructure for the purpose of the supply of drinking water<input type="checkbox"/> Infrastructure for the purpose of the collection and treatment of sewage for disposal and the disposal of the treated sewage<input checked="" type="checkbox"/> Infrastructure for the purpose of the collection and treatment of sewage for the production, supply and use of recycled water

- Infrastructure for the purpose of the capture and treatment of stormwater for the production, supply and use of recycled water
- Infrastructure for the purpose of the collection and further treatment of recycled water for the supply and use of the further treated recycled water
- Infrastructure for the purpose of the collection and treatment of groundwater for the production, supply and use of water
- Infrastructure for the purpose of the collection and treatment of wastewater, other than sewage, stormwater or recycled water, for the production, supply and use of water

Authorised drinking water infrastructure

(the Act, s 7F(1)(d) and (e))

Infrastructure for the purpose of the supply of drinking water that:

- a. is specified in Schedule C, Item C1,
- b. has a design capacity of no more than 2000 kilolitres of drinking water supply capacity per day, and
- c. is to be operated for the purposes specified in Schedule C, Item C2.

Authorised sewerage infrastructure (the Act, s 7F(1)(d) and (e))

Infrastructure for the purpose of the collection and treatment of sewage for the production, supply and use of recycled water that:

- a. is specified in Schedule D, Item D1,
- b. has a design capacity of no more than 1500 kilolitres of sewage processing capacity per day, and
- c. is to be operated for the purposes specified in Schedule D, Item D2.

**Authorised recycled water infrastructure
(the Act, s 7F(d) and (e))**

Infrastructure for the purpose of the collection and treatment of sewage for the production, supply and use of recycled water that:

- a. is specified in Schedule E, Item E1,
- b. has a design capacity of no more than 1500 kilolitres of sewage processing capacity per day, and
- c. is to be operated for the purposes specified in Schedule E, Item E2.

Approval Terms

1. Grant and authorisation

- 1.1 The Independent Pricing and Regulatory Tribunal under the Act, Schedule 4, clause 10(1).

Note: This approval is deemed to be an approval granted under section 7B of the Act.

- 1.2 This approval authorises the registered operator to construct the authorised infrastructure for the authorised purposes in the area of operations in accordance with the specifications set out in this approval.
- 1.3 This clause authorises the registered operator to carry out certain activities that would otherwise be prohibited under section 6 of the Act. This authorisation does not provide an exemption from obligations under other laws unless expressly provided by those laws.

2. Approval conditions

- 2.1 The authorisation in this approval is subject to the standard approval conditions specified in Schedule G, Item G2 and the special approval conditions specified in Schedule G, Item G3.

Note: The Act and Regulation contain additional conditions.

3. Interpretation

- 3.1 Expressions used in this approval that are defined in the Act or Regulations have the meanings set out in the Act or the Regulation unless the context otherwise requires.
- 3.2 In this approval, unless the context otherwise requires:
- the singular includes the plural and vice versa,
 - a reference to this approval includes any schedule to this approval,
 - a reference to a schedule is to a schedule to this approval, and
 - explanatory notes and headings do not form part of this approval, but in the case of uncertainty may be relied on for interpretation purposes.

- 3.3 In this approval:

Act means the Water Industry Competition Act 2006.

area of operations means the area specified in the approval authorisation table.

authorised infrastructure means the water industry infrastructure specified in the approval authorisation table, including (as specified):

- authorised drinking water infrastructure,
- authorised sewage disposal infrastructure, and

c. authorised recycled water infrastructure.

Regulations means any regulations made under the Act.

Schedule A Version History

Current approval in force since	14 August 2024
Original grant date	3 March 2015
Transition date	Transitioned approval granted under the Act, Schedule 4, cl. 10(1) on: 14 August 2024
Variation history	Varied under the Act, s. 7K(6) on: 14 August 2024 Varied under the Act, s. 10 (now repealed) on: 27 August 2015 Varied under the Act, s. 15 (now repealed) on: 13 October 2022
Replacement history	Not applicable
Cancellation or surrender	Not applicable

Schedule B Illustrative map

The area of operations and authorised location of infrastructure are set out in Schedule H and Schedule I using GIS coordinates. The map in this schedule is included for illustrative purposes only. If there is an inconsistency between the map and the GIS coordinates in Schedule H or Schedule I, the GIS coordinates prevail unless they contain an obvious error or misdescription. If there is an obvious error or misdescription, this map may be used as an interpretative tool to assist to identify the boundary.

Huntlee - Area of operations

-  the area (the area of operations) within which the water industry infrastructure, including a reticulation network connected to the infrastructure, is authorised to be constructed
-  the location that the water industry infrastructure, other than pipelines within the reticulation network connected to the infrastructure, is authorised to be constructed

Schedule C Authorised drinking water infrastructure

Item C1 Specified infrastructure

The following water infrastructure used, or to be used, for or in connection with the supply only of drinking water:

- (a) infrastructure for connection to Hunter Water Corporation's drinking water infrastructure,
- (b) reticulation network, including pipelines and pumping stations,
- (c) storage tanks, and
- (d) infrastructure for the further chlorination of drinking water.

Item C2 Authorised purposes

The authorised purposes for which the drinking water infrastructure specified in Item C1 is intended to be operated are the:

- (a) further treatment of drinking water,
- (b) storage of drinking water, and
- (c) conveyance/supply of drinking water.

Schedule D Authorised sewerage infrastructure

Item D1 Specified infrastructure

The following sewerage infrastructure used, or to be used, for or in connection with the collection and treatment of sewage for the production, supply and use of recycled water:

- (a) sewage collection network and pumping stations,
- (b) storage tanks,
- (c) treatment plant and ancillary infrastructure.

Item D2 Authorised purposes

The authorised purposes for which the sewerage infrastructure specified in Item D1 is intended to be operated are the:

- (a) production of recycled water from sewage,
- (b) treatment of sewage,
- (c) filtration of sewage,
- (d) storage of sewage,
- (e) conveyance of sewage,

Schedule E Authorised recycled water infrastructure

Item E1 Specified infrastructure

The following water infrastructure used, or to be used, for or in connection with the collection and treatment of sewage for the production, supply and use of recycled water:

- (a) treatment plant and ancillary infrastructure,
- (b) water reticulation network and pumping stations,
- (c) water storage tanks, and
- (d) infrastructure for the further chlorination of recycled water.

Item E2 Authorised purposes

The authorised purposes for which the recycled water infrastructure specified in Item E1 is intended to be operated are the:

- (a) production of recycled water,
- (b) treatment of recycled water,
- (c) filtration of recycled water,
- (d) storage of recycled water, and
- (e) conveyance of recycled water, and
- (f) supply of recycled water to customers.

Schedule F Staged scheme

Not applicable

Schedule G Approval conditions

Item G1 Interpretation

If any condition, or part of any condition, is unlawful, that condition, or part of the condition, is severable and does not affect the validity of the licence or the balance of the conditions or condition.

Item G2 Standard approval conditions

G2.1 Maintaining appropriate insurance

2.1.1 The registered operator must hold, or ensure that any person it engages to design water industry infrastructure for the scheme holds, professional indemnity insurance in relation to the scheme during the design phase and for a minimum of 6 years from the date of the completion of the design phase.

2.1.2 In this condition G2.1, **design phase** means the period during which any design works are carried out in relation to the water industry infrastructure for the scheme.

Item G3 Special approval conditions

G3.1 Permitted end-uses for recycled water

3.1.1 The registered operator must ensure the water industry infrastructure for the scheme is designed and constructed to enable the supply of recycled water that is fit for the end-uses specified in Table G3.1 below.

Table G3.1

- | |
|--|
| <ol style="list-style-type: none">1. Toilet flushing2. Irrigation of gardens (including vertical gardens)3. Clothes washing4. Car washing5. Dust suppression6. General wash-down7. Street cleaning8. Ornamental water features9. Process water at recycled water treatment plant |
|--|

3.1.2 In this condition G3.1, **ornamental water feature** means a water feature that:

- (a) is provided primarily for aesthetic or beautification purposes, and
- (b) does not, by its design or accessibility, encourage interaction with the water.

G3.2 Review of Environmental Factors

3.2.1 The registered operator must implement environmental risk mitigation measures substantially consistent with the environmental risk mitigation measures identified in the REF where the registered operator carries out any activities authorised by this approval.

3.2.2 In this condition G3.3, **REF** means the documents titled:

- (a) "Review of Environmental Factors for the Proposed Sewage, Recycled Water and Drinking Water Reticulation Systems", version 4, prepared by RPS Australia East Pty Ltd and dated June 2015; and
- (b) "Review of Environmental Factors for the Extension of a Sewage Reticulation System, North Rothbury", version 3, prepared by RPS Australia East Pty Ltd and dated June 2015;
- (c) "Review of Environmental Factors for the Huntlee Local Water Centre", version 4, prepared by RPS Australia East Pty Ltd and dated June 2015;

and does not include any modified version of those documents or any documents replacing them.

G3.3 Construction Environmental Management Plan

3.3.1 The registered operator must ensure that the construction of any authorised infrastructure is carried out in accordance with the construction environmental management plan.

3.3.2 In this condition G3.3:

- (a) **construction environmental management plan** means a site or project specific plan which:
 - (i) complies with the basic structure detailed in the environmental management plan guidelines; and
 - (ii) identifies how the licensee will implement the environmental risk mitigation measures identified in the REF to the extent they relate to construction.
- (b) **environmental management plan guidelines** means the document titled *Guideline for the Preparation of Environmental Management Plans*, 2004, published by the Department of Infrastructure, Planning and Natural Resources that provides guidance to stakeholders preparing environmental management plans for environmental impact assessments and approvals under the *Environmental Planning and Assessment Act 1979*.

Schedule H Area of operations

The area of operations is the area bounded by the GIS coordinates listed in item G1 and excluding the areas bounded by the GIS coordinates listed in Item G2.

Item H1 GIS coordinates for outer bounds of area of operations

Note: Coordinate reference system is MGA 56

Schedule I Location of infrastructure

The location of the following water industry infrastructure is to be within the area bounded by the GIS coordinates listed in Item H1.1:

- (a) Schedule C (drinking water infrastructure), Item C1(c) and (d),
- (b) Schedule D (sewerage infrastructure), Item D1(b) and (c), and
- (c) Schedule E (recycled water infrastructure), Item E1 (a), (c) and (d).

Item I2 GIS coordinates for location of water industry infrastructure

Note: Coordinate reference system is MGA 56

[List of coordinates]

Local water centre	No.	Eastings	Northings
