

## Clarence Valley Council

Published by David Bancroft [?] · Just now · 🌐

Twenty people came to the first of our community information sessions last night about a possible rate rise application, which is a decent turn out considering the threatening conditions.

Council is considering applying for rate increases of 8% a year for three years starting from 2018/19 for a total increase of 25.97%.

The next of these information sessions is at the council offices in Maclean from 5.30-7.30 tonight, followed by another at the Treelands Drive Community Centre in Yamba from 5.30-7.30pm tomorrow and the Iluka community hall from 5.30-7.30pm Thursday.

All are welcome.
