

Water Industry Competition Act 2006

Schedule 4, clause 10

Notice of decision – Grant of scheme approval

Approval No. 25_021SA

The Independent Pricing and Regulatory Tribunal (**IPART**) grants scheme approval for the Central Park scheme under Schedule 4, clause 10(1) of the *Water Industry Competition Act 2006 (Act)*.

The scheme approval takes effect on 1 March 2025.

In considering whether to grant the scheme approval and what conditions to impose on the approval, IPART had regard to the objects in sections 2A and 5A of the Act.

The scheme approval is attached.

3/02/2025

Scheme Approval

Approval Authorisation Table

Scheme name	Central Park
Approval number	25_021SA
Version history	Current approval in force since: 1 March 2025. Details about grant, variation, replacement, cancellation or surrender of this approval are set out in Schedule A.
Regulated scheme (retailer required)	Yes
Staged scheme (the Act, s 7F(1)(f))	No
Area of operations (the Act, s 7F(1)(a))	The area specified in Schedule H. (The map in Schedule B shows a simple illustration of the area of operations. Refer to Schedule H for the precise area of operations.)
Authorised location of infrastructure, other than pipelines within the reticulation network connected to the infrastructure (the Act, s 7F(1)(b))	The locations specified in Schedule I. (The map in Schedule B shows a simple illustration of the locations of infrastructure. Refer to Schedule I for the precise location.)
Authorised classes (the Act, s 7F(1)(c))	<input type="checkbox"/> Infrastructure for the purpose of the production or supply of drinking water <input checked="" type="checkbox"/> Infrastructure for the purpose of the supply of drinking water <input type="checkbox"/> Infrastructure for the purpose of the collection and treatment of sewage for disposal and the disposal of the treated sewage <input checked="" type="checkbox"/> Infrastructure for the purpose of the collection and treatment of sewage for the production, supply and use of recycled water

-
- Infrastructure for the purpose of the capture and treatment of stormwater for the production, supply and use of recycled water
 - Infrastructure for the purpose of the collection and further treatment of recycled water for the supply and use of the further treated recycled water
 - Infrastructure for the purpose of the collection and treatment of groundwater for the production, supply and use of water
 - Infrastructure for the purpose of the collection and treatment of wastewater, other than sewage, stormwater or recycled water, for the production, supply and use of water

Authorised drinking water infrastructure

(the Act, s 7F(1)(d) and (e))

Infrastructure for the purpose of the supply of drinking water that:

- a. is specified in Schedule C, Item C1,
- b. has a design capacity of no more than 750 kilolitres of drinking water supply capacity per day, and
- c. is to be operated for the purposes specified in Schedule C, Item C2

Authorised sewerage infrastructure

(the Act, s 7F(1)(d) and (e))

Infrastructure for the purpose of the collection and treatment of sewage for the production, supply and use of recycled water that:

- a. is specified in Schedule D, Item D1,
- b. has a design capacity of no more than 1,500 kilolitres of sewage processing capacity per day, and
- c. is to be operated for the purposes specified in Schedule D, Item D2

Authorised recycled water infrastructure

(the Act, s 7F(d) and (e))

Infrastructure for the purpose of the collection and treatment of sewage for the production, supply and use of recycled water that:

- a. is specified in Schedule E, Item E1,
 - b. has a design capacity of no more than 1,500 kilolitres of sewage processing capacity per day, and
 - c. is to be operated for the purposes specified in Schedule E, Item E2.
-

Approval Terms

1. Grant and authorisation

- 1.1 The Independent Pricing and Regulatory Tribunal grants this approval under the Act, Schedule 4, clause 10(1).

Note: This approval is deemed to be an approval granted under section 7B of the Act.

- 1.2 This approval authorises the registered operator to construct the authorised infrastructure for the authorised purposes in the area of operations in accordance with the specifications set out in this approval.

Note: This clause authorises the registered operator to carry out certain activities that would otherwise be prohibited under section 6 of the Act. This authorisation does not provide an exemption from obligations under other laws unless expressly provided by those laws.

2. Approval conditions

- 2.1 The authorisation in this approval is subject to the standard approval conditions specified in Schedule G, Item G2 and the special approval conditions specified in Schedule G, Item G3.

Note: The Act and Regulation contain additional conditions.

3. Interpretation

- 3.1 Expressions used in this approval that are defined in the Act or Regulations have the meanings set out in the Act or the Regulation unless the context otherwise requires.

- 3.2 In this approval, unless the context otherwise requires:

- a. the singular includes the plural and vice versa,
- b. a reference to this approval includes any schedule to this approval,
- c. a reference to a schedule is to a schedule to this approval, and
- d. explanatory notes and headings do not form part of this approval, but in the case of uncertainty may be relied on for interpretation purposes.

- 3.3 In this approval:

Act means the *Water Industry Competition Act 2006*.

area of operations means the area specified in the approval authorisation table.

authorised infrastructure means the water industry infrastructure specified in the approval authorisation table, including (as specified):

- a. authorised drinking water infrastructure,
- b. authorised sewage disposal infrastructure, and
- c. authorised recycled water infrastructure.

Regulations means any regulations made under the Act.

Schedule A Version History

Current approval in force since	1 March 2025
Original grant date	4 January 2013
Transition date	Transitioned approval granted under the Act, Schedule 4, cl 10(1) on: 1 March 2025
Variation history	Varied under the Act, s. 7K(6) on: Not applicable Varied under the Act, s. 10 or s. 15 (now repealed) on: <ul style="list-style-type: none">• 2 January 2019• 26 June 2020• 26 July 2021.
Replacement history	Not applicable
Cancellation or surrender	Not applicable

Schedule B Illustrative map

The area of operations and authorised location of infrastructure are set out in Schedule H and Schedule I using GIS coordinates. The map in this schedule is included for illustrative purposes only. If there is an inconsistency between the map and the GIS coordinates in Schedule H or Schedule I, the GIS coordinates prevail unless they contain an obvious error or misdescription. If there is an obvious error or misdescription, this map may be used as an interpretative tool to assist to identify the boundary.

Central Park - Area of operations

■ the area (the area of operations) within which the water industry infrastructure, including a reticulation network connected to the infrastructure, is authorised to be constructed
■ the location that the water industry infrastructure, other than pipelines within the reticulation network connected to the infrastructure, is authorised to be constructed

Schedule C Authorised drinking water infrastructure

Item C1 Specified infrastructure

The following water infrastructure used, or to be used, for or in connection with the supply only of drinking water:

- (a) infrastructure for connection to Sydney Water's drinking water infrastructure,
- (b) reticulation network, including pipelines and pumping stations,
- (c) storage tanks, and
- (d) infrastructure for the further chlorination of drinking water.

Item C2 Authorised purposes

The authorised purposes for which the drinking water infrastructure specified in Item C1 is intended to be operated are the:

- (a) further treatment of drinking water,
- (b) storage of drinking water,
- (c) conveyance of drinking water, and
- (d) supply of drinking water to customers.

Schedule D Authorised sewerage infrastructure

Item D1 Specified infrastructure

The following sewerage infrastructure used, or to be used, for or in connection with the collection and treatment of sewage for the production, supply and use of recycled water:

- (a) sewage reticulation network and pumping stations,
- (b) storage tanks, and
- (c) treatment plant and ancillary infrastructure.

Item D2 Authorised purposes

The authorised purposes for which the sewerage infrastructure specified in Item D1 is intended to be operated are the:

- (a) production of recycled water from sewage,
- (b) treatment of sewage,
- (c) filtration of sewage,
- (d) storage of sewage,
- (e) conveyance of sewage.

Schedule E Authorised recycled water infrastructure

Item E1 Specified infrastructure

The following water infrastructure used, or to be used, for or in connection with the collection and treatment of sewage for the production, supply and use of recycled water:

- (a) treatment plant and ancillary infrastructure,
- (b) water reticulation network and pumping stations,
- (c) water storage tanks, and
- (d) infrastructure for the further chlorination of recycled water.

Item E2 Authorised purposes

The authorised purposes for which the recycled water infrastructure specified in Item E1 is intended to be operated are the:

- (a) production of recycled water from sewage,
- (b) treatment of recycled water,
- (c) filtration of recycled water,
- (d) storage of recycled water, and
- (e) conveyance of recycled water, and
- (f) supply of recycled water to customers.

Schedule F Staged scheme

Not applicable.

Schedule G Approval conditions

Item G1 Interpretation

If any condition, or part of any condition, is unlawful, that condition, or part of the condition, is severable and does not affect the validity of the approval or the balance of the conditions or condition.

Item G2 Standard approval conditions

G2.1 [Not applicable]

Item G3 Special approval conditions

G3.1 Infrastructure designed and constructed to be fit for end-uses

3.1.1 The registered operator must ensure the water industry infrastructure for the scheme is designed and constructed to enable the supply of recycled water that is fit for the end-uses specified in Table G3.1 below.

Table G3.1

- | |
|--|
| <ol style="list-style-type: none"> 1. Car washing 2. Clothes washing (cold water tap only) 3. Cooling tower make-up water 4. General wash-down 5. Irrigation (including vertical gardens) 6. Ornamental water features 7. Process water at the recycled water treatment plant 8. Street cleaning 9. Toilet flushing |
|--|

3.1.2 In this condition G3.1, **ornamental water feature** means a water feature that:

- (a) is provided primarily for aesthetic or beautification purposes, and
- (b) does not, by its design or accessibility, encourage interaction with the water.

G3.2 [Not applicable]

G3.3 [Not applicable]

G3.4 [Not applicable]

G3.5 [Not applicable]

G3.6 [Not applicable]

Schedule H Area of operations

The area of operations is the area bounded by the GIS coordinates listed in Item H1.

Item H1 GIS coordinates for outer bounds of area of operations

Note: Coordinate reference system is MGA 56

No.	Eastings	Northings	No.	Eastings	Northings
1	333382.854	6249303.259	12	333724.007	6249053.884

10	333739.767	6249171.619	21	333408.348	6249223.533
11	333752.745	6249060.837	22	333382.854	6249303.259

Schedule I Location of infrastructure

The location of the following water industry infrastructure is to be within the area bounded by the GIS coordinates listed in Item I1:

- (a) Schedule C (drinking water infrastructure), Item C1(c) and Item C1(d)
- (b) Schedule D (sewerage infrastructure), Item D1(b) and Item D1(c)
- (c) Schedule E (recycled water infrastructure), Item E1(a), Item E1(c) and Item E1(d).

Item I1 GIS coordinates for location of water industry infrastructure

Note: Coordinate reference system is MGA 56

No.	Eastings	Northings
1	333547.405	6249212.293
