

# Addendum to draft report package of Opal fare review

30 August 2024

## 1 Our review of Maximum Opal fares

On 16 August 2024, we released a draft report and associated information papers into our review of maximum Opal fares until 2028. We have identified some errors in two of the papers we released:

- [Technical paper – Modelling Socially Optimal fares](#)
- [Information paper – Patronage](#)

We have revised these papers and have reissued them on 30 August 2024,

These errors were mainly descriptive or labelling errors and included some inconsistencies with the modelling parameters.

These errors do not impact the draft fares. For more information see the revised versions of the papers above or contact the Opal review team through our [website](#).
