Revenue Policy/ Pricing Methodology

Ordinary Rates

The total area of Kyogle Council is 358,900 Ha. This is made up of 262,735 Ha of rateable land and 96,165 Ha of non-rateable land. Of this non-rateable land 92,554 Ha (26% of the total area) is owned or controlled by State Forests and National Parks.

Council's ability to raise revenue is restricted by State Government "rate pegging." The Minister for Local Government announces the maximum permissible increase in rates each year, as determined by the Independent Pricing and Regulatory Tribunal (IPART). For the 2021/2022 financial year Kyogle Council rates will increase by 2.0% as determined by the IPART.

- (b) A consumption based charge for each kilolitre of water consumed.

The overall increase in Water Charges (fixed plus variable) for 2021/2022 is 5%.

Residential Sewerage Charges

Residential Sewerage charges incorporate a uniform charge for each residential unit or dwelling.

The increase in Sewerage Charges for 2021/2022 is 5.0%.

CHARGE	NUMBER OF CHARGES	ANNUAL CHARGE (\$)	ANTICIPATED YIELD (\$)
Residential Sewerage Annual Charge per dwelling and/or individual unit	1,634	862	1,408,590
Non rateable properties	25	0	0

Non Residential Sewerage Charges

Non Residential sewerage charges are to be charged as per the formula:

$$(AC + C \times UC) \times SDF$$

Where:

AC = an annual availability/access charge (\$).

C = Customer's annual water consumption (kL)

UC = Sewerage Usage Charge (\$/kL)

SDF = Sewerage Discharge Factor (i.e. the ratio of a customer's estimated volume discharged in the sewerage system to the customer's total water consumption). Refer Councils Liquid Trade Waste Policy for details.

Total	330		156,859
Sewer Usage Charge		\$1.30 per kL	118,300

Note: Non-Residential Sewerage Charges are subject to a Minimum charge equivalent to the residential sewerage charge.

Trade Waste Charges:

Council has introduced cost-reflective trade waste fees and charges in order to comply with the NSW Governments Best Practice Pricing Guidelines.

These fees and charges apply to ALL liquid trade waste dischargers and are determined with reference to the levels of pre-treatment (e.g. appropriately sized and maintained grease traps) and excess mass charges for wastes exceeding normal acceptance limits.

(a) Liquid trade waste charges for dischargers requiring nil or minimal pre-treatment are to be charged as per the formula:

$$A + I$$

Where:

- A = Annual trade waste fee for minor or no pre-treatment (\$)
- I = Re-inspection fee (\$) (where required)

(b) Liquid trade waste charges for dischargers requiring prescribed pre-treatment are to be charged as per the formula:

$$A + I + (C \times UC \times TWDF)$$

Where:

- A = Annual trade waste fee for prescribed pre-treatment (\$)
- I = Re-inspection fee (\$) (where required)
- C = Customer's annual water consumption (kL)
- UC = Trade Waste Usage Charge (\$/kL)
- TWDF = Trade Waste Discharge Factor (i.e. the ratio of a customer's estimated volume discharged in the sewerage system to the customer's total water consumption). Refer Councils Liquid Trade Waste Policy for details.

(c) Liquid trade waste charges for large dischargers (over about 20kL/d) and industrial waste are to be charged as per the formula:

$$A + I + EMC$$

Where:

- A = Annual trade waste fee for Major Discharger (\$)
- I = Re-inspection fee (\$) (where required)
- EMC = Total Excess Mass Charges (\$) (Refer Councils Fees and Charges for details.)

(d) Liquid trade waste charges for dischargers with a sewerage dump point are to be charged as per the formula:

$$A + I$$

Where:

- A = Annual trade waste fee for Sewer Dump Point (\$)
- I = Re-inspection fee (\$) (where required)

Anticipated Yield from Trade Waste charges:

ANNUAL TRADE WASTE FEE OR CHARGE	NUMBER OF CONNECTIONS	RATE PER UNIT (\$)	ANTICIPATED YIELD (\$)
Min or no pre treatment	98	110	10,780
Prescribed pre treatment	7	110	770
Major discharger	0	630	0
Sewer Dump Point	4	862	3,448
Re-inspection fee	0	82	0
Totals	109		14,998
Trade Waste Usage (with pre-treatment) per kL		\$1.30	18,850
Trade Waste Usage (without pre-treatment) per kL		*\$6.00	6,000
Totals			24,850

* This charge is to gradually increase to around \$11/kL. It has been set at the same rate as dischargers with appropriate prescribed pre-treatment for this year in order to give those customers who are required to have pre-treatment a period of grace to get appropriate pre-treatment devices installed, before they are charged heavily for not having pre-treatment.

Fees and Charges

Council has Fees and Charges for the 2021/2022 financial year, details of which are contained in the 2021/2022 Schedule of Fees and Charges (separate document).

Interest Charges

Interest charges are to be 5% calculated on the outstanding component of all rates and charges. This represents a reduction from the maximum allowed 6% as advised by the Office for Local Government.

Developer Contributions (Section 94 Environmental Planning and Assessment Act 1979)

Contributions are levied for all works identified within each Section 94 Plan. Contributions for Water and Sewerage are levied under Section 64 of the Local Government Act. A planning levy is applied to all contributions paid. Monies are to be expended within a reasonable time for the purposes for which they are raised. Developer contributions are indexed using the Brisbane All Groups CPI figures published by the Australian Bureau of Statistics on a quarterly basis. Note that Council adopted a Developer Contributions Discounting Policy in August 2019 and that discounts apply to certain types of developments.

Integrated Planning and Reporting

Local councils in NSW are required to undertake their planning and reporting activities in accordance with the Local Government Act 1993 and the Local Government (General) Regulation 2005. The Act provides that the Deputy Director General (Local Government), Department of Premier and Cabinet can issue Guidelines that must be followed by local councils when undertaking their planning and reporting activities. To this end, the NSW Government has developed an Integrated Planning and Reporting (IP&R) Manual that provides councils with the framework to work within for the development of its strategic planning documents and reporting requirements. The diagram below is taken from this manual and outlines the IP&R framework.

Local Government Planning and Reporting framework

The overarching strategic document is the Community Strategic Plan. Council readopted its current Community Strategic Plan in December 2016.

The Resourcing Strategy consists of three separate components;

1. Workforce Management Strategy (Adopted April 2017)
2. Asset Management Plans, Strategy and Policy (Adopted May – August 2019)
3. Long Term Financial Plan (Reviewed in 2020)

The LTFP adopted by Council covers a twenty-year period, and will be reviewed and updated annually as part of the development of the Operational Plan and Delivery Program. The LTFP has been used by the Council to inform its decision-making during the finalisation of the Community Strategic Plan.

Council has also adopted an Emergency Disaster Relief Fund with the following criteria:

Who is the fund intended to help?	Council residents/local business employees who as a result of an unforeseen disaster have insufficient financial resources for a modest standard of living.
Why do these people need help?	Loss of property/finances as a result of an unforeseen disaster.
Who is involved in the administration/distribution of these funds?	One Council representative along with a Committee consisting of members of the public.
What help does the fund provide to these people?	The relief to a person who has been assessed as an eligible recipient is to be in the form of direct distribution of money or goods. Relief is intended to assist with day to day living expenses such as food and clothing.
How are the recipients of help selected?	Recipients who can demonstrate that there has been a marked lowering of their standard of living causing hardship as a result of the unforeseen disaster. As a guide only, applicants who are eligible for full or partial income tested Social Security benefits would be eligible for assistance up to the level of income at which tested Social Security benefits cease to be payable (this income level varies depending upon the applicant's marital situation). Where an affected individual has the availability of other sources of income (e.g. they obtain other employment) or assets they may be considered ineligible for assistance. This does not mean that the managers of the fund must, in all circumstances, investigate the financial resources of each individual beneficiary. Sometimes it may be apparent from the common attributes of the potential beneficiaries that they are necessitous circumstances.
Where do these funds come from?	Contributions received from Council and the general public.
How is the relief fund operated?	All contributions to receive receipt for tax purposes. All contributions to be in the form of money. Register of gifts to be maintained. All outgoings to record date, details of recipient and amount.
What happens to any surplus assets?	At dissolution any surplus assets to be transferred to another fund, authority or institution, which has similar objects, and to which income tax deductible contributions can be made.

Funds remaining in the Kyogle Emergency Disaster Relief Fund at 30 June, 2021 will be carried over to the 2021/2022 financial year for use in accordance with the above criteria. The current balance of the fund is **\$21,744**.

Business or Commercial Activities

Pricing Policy/Competitive Neutrality

Pricing Policy is cost recovery for consumer specific services except where a community service obligation exists to justify charging less than full costs; e.g. pools and library

Full cost attribution is applied to all business activities. The following programs are considered to be of a commercial nature;

Category One Businesses (Turnover greater than \$2 million)

1. State Highways works

Category Two Businesses (Turnover less than \$2 million)

1. Water Supplies
2. Sewerage Services
3. Quarries
4. Plant

In accordance with National Competition Policy guidelines, Council incorporates all direct and indirect costs, plus taxes that a private sector operator would face in the operation of a similar business. These taxes are known as taxation equivalent payments (TEP's), and will be based on items such as Payroll Tax, Land Tax and Income Tax.

These figures will only be applied where the effects are considered to be material. This process is referred to as "competitive neutrality".

Business and Commercial activities are distinguished from other activities by Council's intention to generate a surplus from their operation. Any surpluses could then be used to fund the expansion of the commercial activities or to subsidise the Council's other activities.
