Dear Sir/Madam

Submission

We write in connection with the intended SRV rate rise

We strongly disagree with this decision and discrimination, no one deserves to be treated like this

This is irrational and very unfair, to expect decent people to pay the recent rate rise, and then to impose a further 30% SRV rise is totally outrageous

Many residents have lived in Oakville for 30 - 40 years, and despite the increase in land values Oakville residents incomes have not gone up 100 x 180%, so how are we expected to pay the exorbitant rate rises let alone an SRV rise

If the majority of the councillors who supported option 3 for the SRV were to be imposed with such an injustice, certainly they too will be up in arms

Oakville residents are indifferent to anyone living within the Hawkesbury boundaries, rates should be distributed more evenly, so why ??? this injustice upon Oakville residents

Your assistance in helping Oakville residents alleviate this hardship and rectify this unfairness

Again we oppose to an SRV increase

Yours sincerely
