Submission: Hi There,

I am writing this submission as I am concerned about the proposal for the mega council. With the evidence and facts that have been provided there does not seem to be enough benefit for this proposal. Each Council is currently setup and in action providing jobs and ensuring each and every suburb is catered for. Merging these together will potentially be a waste of tax payer money, cause more conflicts between residents and areas with different views and ultimately lead to job losses due to double up in positions. My vote is to leave the areas as is.
