Submission: Do not agree with the rise. Can't afford or nor can many families. Get rid of the loop hole of people living in 'relocatable' homes not having to pay rates. More of these are being built in this area eg Latitude 1, and are not contributing to local rates, although using the services. They will never be moving those new house anywhere!
Nothing the council wants to spend this extra money on do I agree with. Money is wasted eg on the number of people employed at certain council services (library, offices) , save money here.
