IPART and central coast council need to be made accountable for this mismanagement. Once again rate payers will foot the bill for incompetence, How did ipart Miss the 10% increase a few years ago and why hasnt it been addressed earlier? If this was a business heads would roll. Without a councillors, the administrator will get his way and the 34% increase will go aheadIm sure this money will be wasted and the services people want (guttering and storm water) will be pushed to the side. The whole council is a shambles and the governing body isnt much better. My only want would be to increase slowly and not to place more financial stress on our community, especially those in the ye old Gosford shire who got slapped with an extra 40% rate rise this year. Also while your at it ipart how about you give us some councillors back so we have a voice? I wasnt aware that dictatorships were popular in a democratic country.
