

Author name: G. Lupton

Date of submission: 14 July 2015

Submission: I oppose the proposed merger of Leichhardt Municipal Council with the other inner west council. My main concern is that the increase in the size of the constituency from 56000 to over 350,000 will adversely affect access to local government and reduce my ability to have my voice heard in the many important debates that affect my local community - particularly regarding transport and development.
