I do not support Sydney Water Corporations proposal to increase rates between 2025-2030. As a customer of Sydney Water in the Illawarra Region, why should I cover the cost of Growth in the Western Sydney Region. Western Sydney are predicted to get 75% of the total spend in the next 10 years, Illawarra gets 8% of spending in the next 10years. It is not fair for our bills to increase equal to everyone else when we don't get equal return on spend from Sydney Water Corporation.
