|--|---|
| <p>If you have any general feedback regarding your council's proposed SV, please leave your comments in the comment box below.</p> | <p>Is your Haymarket Post Shop address postcode 1240 or are peoples letters going nowhere near you due to the wrong postcode printed page ten of Thursday the 20th Feb Lismore Echo and perhaps other papers. Also the residents here are almost all ignorant to the fact North Lismore Plateau Development is costed in infrastructure to Lismore City council at about 32 Million Dollars to kill habitat and threatened species to settle people on an indigeonous burial ground and sacred space area. They want to spend millions digging out near the airport to relieve floods by cm but want the filling in of wetlands at North Lismore as part of the Plateau Development which makes no sense and will definately affect those down the hill in flood time endangering many homes. Have they disclosed their money wasting ways to the public NO. I struggle every year to pay rates as do most people I know and many are behind due to poor finances. We have a high proportion of Centrelink recipients in this area studying, ill, looking for work and retired and lots of expenses have risen alot but Centrelink hasn't much and there are limited jobs. It is difficult to see on your site what is important to read as the list is extremely long so long it would be rare anyone would read it. THE PUBLIC NEEDS DISCLOSURE ON WHAT THEY NEED THE MONEY FOR PROPERLY AND THAT IT IS NOT NORMAL FOR US TO PAY FOR DEVELOPMENTS IS IT. Please give more time for full disclosure and demand they give it as I should not have to pay for a new development or anyone else but developer. I expect the public servant who reads this to contact me on [REDACTED] as great discrepancies in democracy seem to be happening. I will send this as a formal complaint in this way.</p> |

|-------------------------------|---|
| Your comments on Criterion 1: | They need alot to wreck North Lismore Plateau 32 MILLION to wreck sacred space and desecrate burial ground. They need 32MILLION of our money to build other peoples infrastructure normally mainly paid by developer. It costs alot to support the destruction of rare habitat and endangered species. I do not support this need to pay to get a developer rich. I do not support paying this obscene amount to wreck wetlands, endangered species habitat, burial ground and sacred space. Limit them from wasting our rate money they waste alot on ugly sculptures and other larger wastes like wrecking North Lismore Plateau  |
| Your comments on Criterion 2: | All I read is about roads and infrastructure but no real disclosure of the enormous costs for the North Lismore Plateau Development, the abnormal nature of costs being so high for council and that it is related to their need to make a massive rate rise. If implemented it will make many peoples lives too expensive to afford normal needs and affordable housing for renters and create more debt problems for the vulnerable. Most struggle financially now. This would greatly affect those already on the poverty line of Centrelink which affects alot of children. The developer should not be funded by the rate payers and Lismore council should not fill one wetland in and charge us to make another. |
| Your comments on Criterion 3: | 32 MILLION should not be spent on North Lismore Plateau Development wrong purpose corrupt purpose for our money. Our existing ratepayers are recovering from Major FLOOD, Major FIRE and MAJOR drought and there is already too much poverty in this area. Please check Centrelink Stats for area please and Charities for a poverty reality check before you deny people the ability to afford to live in their home and pay for needs by the proposed Rates Extortion to make a few rich like developers that is disgusting and corrupt.  |
| Your comments on Criterion 4: | Where is it exhibited???????? I have never seen it or read where it is. I imagine it's at corporate Centre where the public rarely go.  |
| Your comments on Criterion 5: | I haven't read as hasn't been in paper that I know of   |
