I really feel this council is going to keep increasing whatever they can as long as you allow them all because they blew half a billion dollars. We already have some of the highest rates and have now increased our rates for their mismanagement of our funds. So now they attack the water rates next. So many are already in arrears and in the peak of a pandemic where so many are struggling you are going to approve another increase come on this has to stop rate payers being punished for our councils stuff ups
