Subject: Rates Rise

Please listen to the community on this prospective rate rise. Sadly this is a very poor local area and council lavishly flaunts the fact that they have no regard for the people of this community. For too long they have been unaccountable for the spiralling debt and seem oblivious to the fact that they need to reign in expenditure. Can we please have some help on this one. None of the councillors have upheld their election promises of a no rate rise and transparency and community liaison. This council has to go. The people are not represented Regards Liz Sarchett
