Subject: Support for Ashfield Council's SRV

To whom it concerns at IPART,

We are writing to support Ashfield Council's application for an SRV to enable it to maintain Ashfield Pool. It 's a vital facility in a municipality with about the lowest percentage of open space in Sydney. The place is packed with flats, so the pool is somewhere to be outside, not to mention the only public facility for miles where people and their kids can swim. If you get letters objecting to the SRV, they're from [REDACTED] who just want to maximise their profits and don't give a damn about the people who live here. Or [REDACTED] who can't see further than the couple of dollars they will save in their next rate bill.

If you want facilities you've got to pay for them. We support Ashfield Council's application for a rate rise.
