Subject: Randwick Council rate rise
Date: Friday, March 02, 2018 9:50:10 PM

QUESTIONABLE and in need of AUDIT i the proposed increases to RCC rates over 3 years.
The COUNCIL.

In the appeal to the Mergers RCC was fully financial, with millions in holdings...yet it submitted an amiable position to merger based on a "Push Polling" Survey .similar to this it is said by many in the community.

(Forensic analysis of the RCC survey suggested "tampering" or unusual interpretation of of figure)

HERE again it is found somewhat staggering that the percentage of residents would willingly agree to MORE RATES.

The findings ad the importance of the rate rise DEMAND ALL RESIDENTS AGREE. The cost benefit over tie should e preseted by the Government Department in a AUDIT of RCC. THINGS DO NOT ADD UP IN THE RATE PAYERS ADVANTAGE, RATHER

it may well be put that ...the next election of works in progress and completed may be the objective...rather than the Best LONG TERM Interest of the Public Purse....as stipulated by the Local Government Act.

I truly believe that RCC needs an Independent AUDIT by the department to restore any doubt in its capacity.

How when this is proposed did councilors "preemptive"/unnecessary \$\$\$\$ pay increase to the GM ??...wit 2 at least marks against him under the CSELR debacle (he indicated was a "good thing for the rate payers"????)_ NOW under a Scathing report for the Auditor and a FAILURE with on going disadvantages to cope with.,AGAIN at rate payers disadvantage.

I believe a AUDIT in the Rate Payers Best Interest is required.

An Independent ADMINISTRATOR needed

Margaret Hogg
