Your submission for this review:

It saddens me greatly that once again the ratepayers of the central coast are [REDACTED] to cover the costs of a failed ineffective and [REDACTED] council. We are constantly being blindsided by this [REDACTED] governance and after having a massive 46.5% increase on rates this year we are expected to pay 34% increase for water! This is not comparable with other council areas who have decent infrastructure that we just dont have here. This is honestly past being outrageous, this is unjust to the central coast residents. We have no one standing up for us and conveying our honest feelings about any of these proposals. Will be doing anything possible to relocate out of the central coast council area as soon as humanly possible.
