Submission: I am strongly against the Amalgamation of Leichhardt Council and believe it should remain a stand alone council.

LMC has an outstanding record in terms of representation, viability and accountability to its constituents. Its financial transparency, records of achievement, sustainability and performance make it one of the most successful local municipal councils in the Sydney, or for that matter, the State of NSW.

I am against the amalgamation as it will only lead to a diminutization of the needs of our local area and its constituents as well as a lack of funding and representation.

Regards,

Noelle Bairle
