My wife & I are elderly pensioners who in the last twelve months have gone from three hot meals a day to just one. The other two meals have been replaced by fruit or a sandwich. We have had to do this as the cost of living is very tight. Now, we fully understand why Sydney Water needs money funding. So when do we cut down on our drinking water from 4L/Day to 2L/Day each? There are others so much worse off than us! What about them?
