Having moved to the Central Coast in 1970 and still living at the same address on the Umina Peninsula I have witnessed the actions of our so called Council. We now have and have had a Claytons Council, under Administration for the last couple of years as well as in the last couple of days found out we are still going to have until our next election of councilors. As to when that is, we haven't been told. As you must see how frustrated I feel and knowing that most of the 50 plus years was under Gosford Council where very little has been done to the Peninsula I would like to know where the Stormwater money was spent. We still have as many streets with no curb and guttering and no drainage. It has been more than a nightmare since we were forced into the combining Council. An increase of \$400 in our General Rates as well as the proposed \$200 for Water and the DEBT INCURRED by such, as well as not being funded properly by our State Government, absolutely infuriates me. I am happy to pay for the normal increases for services set by IPART but to pay for the stupidity and unprofessional manner in which this Council has performed over this time is disgusting, embarrassing as well as [REDACTED] to the community on the Central Coast. I think it is time to leave the Central Coast as I don't plan to give one more dollar to this useless Council.
