I'm a taxi Operator/Driver for the last five years, from my experience and on the job discussion with other drivers, we are suffering and finding it very difficult to continue operating with all the precious from running cost to losing most of our work to rideshare and other service providers. Were is the even playing field when our cost to register a taxi is over \$12000 per year and rideshare about \$2000. if there is a maximum set price for rank and hail taxi service from a rank, there wont be any more taxis on the road. Unless the price is set per kilometer traveled and a minimum set price of \$15.00. eg: Rank and hail price is the higher of the two \$15.00 or flag fall + gov levy + \$ 2.79 per km.
