Your submission for this review:

While I understand that prices are going up and are going up fast, it's very difficult for us to take on another rising bill on top of mortgage payments, utilities (which have been increasing relentlessly), basic necessities like food, and council payments. The proposal to increase by 18% and 7% every following year for 4 years seems unreasonable to me. I believe this will make life much more difficult yet again for the next few years at least.
