Your submission for this review:

A proposed increase of 18% followed by subsequent increases is ridiculous when you Sydney water made a Total income for the year of \$2,946 million, which was \$57 million above the SCI Target of \$2,889 million. Their Regulated income was \$2,662 million, which was \$11 million higher than the SCI Target of \$2,651 million. Non-regulated income was \$284 million, which was \$45 million higher than the SCI Target of \$239 million. These profit levels of \$456m after tax as per statement to investors show that the increase is purely to increase total profit.
