Your submission for this review:

To suggest an increase of this magnitude is outrageous. In this day and age when so many people are struggling to eat and exist, this is a ludicrous proposal. You do not make any allowances for self funded retirees, they manage their finances to the last cent with no help from you at all. Now you are expecting us to deeper to fund your increases. I hope the law will not allow you to instigate such outlandish increases. Sadly, you have the monopoly, leaving us with little power.
