Subject: Shoalhaven City Council Land Rates increase

Myself and my Husband, consider the Land Rate Increase for the Shoalhaven City Council, as completely obscene, what justification do they have to such a massive increase over 2 years, 13% per year !!!!!!!.

Council should look at their own shortfalls within the Council to eliminate costs, before this massive increase is past on. (Get their Costs under control and eliminate waste) .

I dont see any curb and gutting, drainage , foot paths in my area in the last 25 years.

How can a pensioner afford such a rate increase, without it affecting their day to day living, absolutely outrages.

What is the Council proposing to do for the Rate payers???

Concerned Rate payers
