Subject: shoal haven council rates

Dear Sir/ Madam,

I wish to refer to the pending rate increase proposed by the shoalhaven municipal council.

Being a retired pensioner , I find this proposed increase of 28% beyond the means of the pension that has not been raised by any amount approaching this, so, my request is that the council should put this proposed interest on hold while it looks at its financial structure to finance from within. As matter of interest this council has already implemented several rate increases over the last 3 years, making the aged pension and CPI considerably out of step.

cordially yours

Raymond Berg
