Subject: Fit for the Future Proposals: City of Sydney

Hello - I live and work in the City of Sydney LGA. My council is exceptional in fulfilling its basic obligations as a council and also does important work about the future of the LGA and Sydney as a whole.

I can appreciate the NSW Government's interest in reducing the quantity of councils in Sydney. Some councils (such as Ashfield and Leichhardt) are dysfunctional and poorly performing and can hinder necessary planning of the larger area. I suspect they (and their populations) would benefit from consolidation with neighbouring councils so they meet a population size similar to the City of Sydney.
