Date of submission: Sunday, 5 July 2015

Submission: I am opposed to amalgamation of City of Sydney with other local government councils and/or areas.

The City is already large, complex and diverse, and greater size, complexity and diversity of interests will diffuse and dilute voices for the even further. We have large state government electorates that serve this function. Councils are intended by their nature (and name as "Local Governments") are intended to serve local interests; not to duplicate state government electorates.

Thank you

Roger West
