I am ABSOLUTLEY opposed to any rate, fee or price increase from Central Coast Council for any water rate, usage rate, access fee or any special cost. This is an outrage that our Land rates have increased exponentially by 40% or more, when 15% was the figure touted by the inept & out of touch administrator. Our services have declined by 60-80% while our costs have increased by more than 40%. Please note the TOTAL disagreement for any cost hike from this community member.
