First of all, why does the description say MAXIMUM FARE? It is misleading and wrong. It should say "Minimum Fare". However, based on the average waiting time on the ranks (I usually work from lower north shore to Hornsby area), which can be between 0.5 to 1 hour minimum, the fare on the rank should start from \$15.00 plus the levy. On the other hand, the waiting time at the airport is between 1.5 to 2 hours. So, based on the cost per hour for the taxi and minimum hourly income, I would suggest \$45 plus levy and airport fee is a must. Regards, Tim T1925
