Your submission for this review:

I disagree with the huge rise in rates as they do not relate to the CPI or rise in Australian wages and there have been no improvements in services supplied to warrant a rate rise. I pay for water yet have no water main supply , I pay for sewer service yet have on site sewer management only, I pay for stormwater drainage yet have no street kerb & gutter and manage all stormwater that falls on the street & lands on my property. There is no justification for a rate rise, in fact I should not have to pay anything for Water, sewerage or stormwater services as non are provided by council.
