Submission: We want Leichhardt Council to remain independent. Our council is not perfect but they are doing a fair job. Our unique heritage area and needs mean we require a council who understands and prioritises these needs. Amalgamating with inefficient and poorer councils mean we will have our rates taken and used to improve other areas and we will then be neglected, while paying dearly for the neglect!

Bigger is not better, and if you push this amalgamation through, you can say goodbye to my vote come state election time.
