Your submission for this review:

The minimum waiting time at the holding bay is around 45 to 50 mins and it takes another 10 mins to pickup a passenger. Basic pay an hour for a Taxi driver should be \$35 including the pickup toll. Due to the high operating cost of sustaining a Taxi Business. It is reasonably justified to set a minimum fare from the Airport Pickup considering the cost of operating a Taxi Business is highly inflated at this course. This could be probable reason the driver seeking to ask more fare from a rider because he feels the rider is a short fare and is not covering for their basic pay rate
