Your submission for this review:

The Hills Council is failing their constituents. They have subdivided land and are allowing smaller and smaller blocks of land to be sold. They are allowing poorly built unit blocks to be put up in the most random spots with little to no access to public transport or the metro. It really makes no sense and all these new houses on tiny blocks all pay rates and taxes and the infrastructure has not been put in to sustain the loads of cars and people that are moving in. It's becoming a dump and they want us to pay more rates and taxes? Really when they have a slush fund to buy a mall? It definitely shows we need a change in governance..
