1.1 EXPLANATORY NOTES

1.1.1 Customer Classifications

- Residential

Residential regulated retail prices are available for all consumption in premises used wholly or principally as private dwellings. A private dwelling is a house, flat, home unit, town house or similar premises including places of worship and includes residential sections of:

- Boarding houses;
- Bed and breakfast
- Nursing homes;
- Hospitals;
- Educational institutions; and
- Approved caravan parks,

whose consumption does not exceed 160MWh per year.

- Business

Business regulated retail prices are available for low voltage electricity supplied to premises for any other purpose. These prices are generally applicable to factories, warehouses, hotels, motels, shops, offices, schools, sheds, irrigation pumps, sporting and social clubs whose consumption does not exceed 160MWh per year.

- Time of Use

Time of Use prices (TOU) are available for business or residential supply. The Time of Use option enables financial benefits for controlled usage at predetermined time periods as listed in definitions below.

- **PEAK PERIOD** is from 7.00 am to 9.00 am and 5.00 pm to 8.00 pm on weekdays.
- **SHOULDER PERIOD** is from 9.00 am to 5.00 pm and 8.00 pm to 10.00 pm on weekdays.
- **OFF-PEAK PERIOD** is at all other times.

All times are Eastern Standard Time and Summer Time as appropriate. Summer Time will apply from the last Sunday in October at 2am and finishes on the last Sunday in March at 3am of the following year.

1.1.2 Transfer between regulated retail pricing options

Where it is known that a different regulated retail price becomes applicable due to an alteration in the use of electricity in a premise, the regulated retail price may be changed subject to the approval of Country Energy.

Customers in the first instance will be connected to a continuous product and controlled load products where applicable. Where a customer requests a change in product option, an application shall be made by the customer, preferably in writing. If a customer wishes to change to the Time of Use (TOU) option and a TOU meter has been provided at the time of connection, no metering installation charge will be required. Where a new TOU meter is required for this tariff to be applied, a metering installation charge will apply.

1.1.3 Variation of Regulated Retail Prices

A variation in regulated retail prices under the standard form contract has no effect, and must not be imposed unless a notice setting out the particulars of the variation is first:

- Published by Country Energy in a newspaper or newspapers circulating throughout NSW or the area in which the variation is to take effect and published on www.countryenergy.com.au
- If relevant to a particular customer or group of customers, notice is served on the customer or group of customers.

The notice must contain the following details:

- Specify the date on or after which the variation is to take effect being a date that is later than the date that the notice is published or served, and
- Include a statement of the new rates or the amount of variation.

Where a regulated retail price change falls within a billing period, charges shall be prorated on a daily basis.

1.1.4 Small Retail Customer

A small retail customer is a customer that consumes less than 160 MWh per annum. In accordance with the Electricity Supply (General) Regulation 2001, Country Energy must determine the rate of consumption or expected consumption of electricity of a customer for the purpose of determining whether or not the customer is a small retail customer or not.

At any time Country Energy becomes aware that a customer consumes electricity at a premise at the rate of greater than 160 MWh per annum and that customer is taking supply under Country Energy's standard form contract, Country Energy must give written notice to the customer that the customer must arrange supply under a customer supply contract with Country Energy or another supplier.

1.1.5 Accounts

Accounts are calculated on the actual number of days between meter readings and the total consumption (kWh) registered on the meter during that period. Accounts will be rendered at regular intervals determined by Country Energy. Accounts are rendered in accordance with the Electricity Supply (General) Regulation 2001. The "Summary of your rights regarding bills and charges" under the Electricity Supply (General) Regulation 2001 is available at www.countryenergy.com.au or a copy may be requested by contacting a customer service advisor on 13 23 56.
