1 The purpose and status of this reporting manual

This Reporting Manual and other Reporting Manuals are issued by IPART. IPART will review and amend these Reporting Manuals from time to time.

Licence conditions for the licensed Electricity Network Operators (ENOs) require that the licence holder complies with any Reporting Manuals issued by the Tribunal.¹ Although no regulatory requirement to comply with a Reporting Manual exists for non-licensed ENOs, IPART expects that all ENOs will comply with the Reporting Manuals where applicable to their specific reporting obligations. Each document may not apply to all ENOs, and this is specified where relevant.

The reporting requirements specified in these Reporting Manuals do not replace any requirements identified in licence conditions, legislation, statutory instruments or codes that apply to ENOs. Compliance with Reporting Manuals is required in addition to, not in substitution for, compliance with other applicable obligations.

The information gathered through the reporting arrangements outlined in this document will allow IPART to:

- ▼ determine whether ENOs are consistently and effectively meeting statutory obligations
- ▼ identify immediate risks and long term trends, and
- ▼ identify trends that signify emerging issues across the industry with a view to developing safety measures or supporting industry safety initiatives where appropriate.

A review of the reporting requirements will be conducted periodically to accommodate any changes to statutory requirements and licence conditions.

IPART has also issued Audit Guidelines to guide networks on how to maintain compliance with their obligations.

2 Annual compliance reporting

The Independent Pricing and Regulatory Tribunal (IPART) administers the licensing regimes for electricity networks operating in NSW. As part of this role, we monitor and assess the networks' compliance with their licence conditions and other legislated obligations, and report annually to the Minister on the extent to which the networks met their licence obligations.²

Licence holders are required to furnish information to IPART to enable IPART to determine whether or not the licence holders are complying with their licence conditions.

Reporting requirements outlined in this document apply to:

- ▼ Ausgrid
- ▼ Endeavour Energy
- ▼ Essential Energy, and
- ▼ TransGrid.

2.1 Annual Compliance Report

Each licence holder is required to submit a report on the network's compliance performance during the 12 months ending 30 June in that year.

This report is exception-based, meaning that only non-compliances with the licence conditions and other legislative obligations are to be reported.

2.1.1 Timing and lodgement

The annual compliance report must be submitted to IPART no later than 31 August each year, or on another date specified by IPART.

Annual compliance reports should be lodged by email to energy@ipart.nsw.gov.au. Name and contact details (phone, email) of the primary contact should also be provided. An alternative contact for when the primary contact is unavailable should also be nominated.

2.1.2 Content of the report

The format of the annual compliance report is set out in Appendix A. In the annual compliance report, licence holders are required to report any non-compliance against licence conditions and obligations that are prescribed in:

- ▼ the *Electricity Supply Act 1995* (NSW), and
- ▼ the network's licence.

² As required under section 88 of the *Electricity Supply Act 1995* (ES Act).
