SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
10:37:38 AM

Thanks for your support for a fairer solar feed-in tariff benchmark.
I would urge you to consider regulating a minimum price, in line with the wholesale price of electricity.
The price for feed-ins should reflect the many benefits that solar energy affords the community.
Until the price is fairer, I will hold off converting to solar, even though it makes so much more sense to me than the ever increasing cost of outdated poles and wires, while punitive pricing remains, I will wait for sense to make the switch.
