**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
10:26:36 AM

Dear Sirs,

I thank you for your support of a fair price for solar.

The feed-in tariff should and must increase in line with the wholesale price of electricity.

The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum and therefore represent the true value of solar. This would mean recognising the environmental and health benefits and the network benefits of rooftop solar.

Yours sincerely,  
Kim Zegenhagen
