As a proud Aussie and Single Mum, I feel we need to lead the way with renewable energy- especially Solar!

With the sunshine we have here in world class abundance, I want to get AWAY from Fossil fuels and focus on better alternatives.

Lets ensure that this Tariff isn't just a benchmark range but is regulated to be offered as a mandatory minimum by Retailers!

We need to be pro active for the environment, the Planet and for our children. I don't want to leave a giant mess behind us for them to have to sort out.

That is wrong and unfair.

Mr Turnbull and his Govt was elected to follow ty the peoples wishes on this issue.

We installed Solar on my Mums roof , who was in her 80's and immediately reaped financial and other rewards.

PLEASE do more than the minimum Tariff to really help get this off the ground for all Aussies!

WE ALL support a Fair price for Solar.

Thanks for your assistance
