

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
10:37:48 AM

In reference to the IPART proposal to more than double the NSW solar feed-in tariff benchmark, I make the following points:

1. I support a fair price for solar;
2. The feed-in tariff should increase in line with the wholesale price of electricity;
3. The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;
4. The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar; and
5. The feed-in tariff should be monitored and regulated by an independent authority.
