

Submission below is for Narromine Shire Council (local government)  
(recommendation number)

(2) We are small, please clarify the level for inclusion of operating license activity level threshold.

(8) all additional costs and levies to us will be passed on.

(10) agree.

(16) disagree, reporting requirements for local government are already too onerous.

(19) disagree, enough data is already provided by us to CCNSW.

(30) disagree for local government, as an ongoing entity of statutory establishment local councils will always have an operational obligation to maintain cemeteries.

(32) disagree, renewal tenure is not in demand in this area and to provide would reduce the amount of land available for perpetual licenses and increase their cost accordingly.
