Submission:

Why are you changing the industry to attract people who will not provide a high level of service to the public.

By allowing people to enter the taxi service at a discounted rate you will get a discounted service.

Look at improving the service to the public by providing owner drivers an investment that they want to protect.

If this IPART proposal goes ahead the industry will be folded with lesser quality drivers and lower standard of service.

LETS LOOK AT IMPROVING NOT REDUCING THE STANDARDS

For most owners the only thing that's keeping them in the taxi industry is the value of the plates. YOU ARE PLAYING WITH PEOPLES LIVES.

Standards not reduce.
