

DEAR SIR OR MADAM,

I AM RESPONDING TO THE LATEST PROPOSED ELECTRICITY INCREASE, AND STRONGLY OBJECT. I DON'T THINK IT'S RIGHT FOR THE ELECTRICITY CONSUMER TO BE SUBSIDISING THE SOLAR POWER INDUSTRY OR CONSUMER. THE CONSUMER IS STRUGGLING AS IS, WITHOUT MORE INCREASES.

THE WHOLE SOLAR SUBSIDISING SCHEME SHOULD BE ABANDONED AS, THEY WILL BE REWARDED BY CHEAPER POWER BY MAKING THEIR OWN POWER. A NEW GAS FIRED POWER PLANT SHOULD BE BUILT FUNDED BY CURRENT POWER PROFITS.

THE LATE NSW LABOR GOVERNMENT SHOULD BE HELD ACCOUNTABLE FOR LACK OF INVESTMENT IN POWER
G. Adams
